

# Microsoft Power Apps

Innovate custom apps in hours - not months

Microsoft Power Apps modernize processes by removing the barriers that keep ideas from turning into apps. With Power Apps, everyone, no matter their skillset, can add business value by quickly and securely developing innovative apps to reduce inefficiencies and solve business challenges. Power Apps connect apps to your data with the click of a button so you're always ready to act on new insights, all without compromising your security, governance and compliance standards.

## Key Benefits

### Increased development agility

Automate and enhance repetitive and time-consuming processes and reduce errors across your organization.

### Speed & savings

Reduce time & cost building web and mobile applications, enabling you to get through your development backlog.

### Efficiency

Effortless Dynamics 365, Office 365, and Azure integration. Remove your data siloes through low-code with Common Data Service and AI Builder.

## Key Capabilities

### Build apps without risk

Clear the way for innovation by empowering first line workers and business users to develop apps that improve processes without compromising your security and compliance standards

### Simplify app development, without constraints

Streamline app development for non-technical team members and seasoned developers alike with the out-of-the-box components you need and the limitless customization options you want

### Deploy quickly, add value continuously

Launch working apps in a fraction of the time with a platform designed for agile deployment, so you can deliver value fast and continuously evolve features to further benefit your business

### Integrate data with just a few clicks

Create business apps that act on the data you collect and use every day—capture new data directly, integrate data from hundreds of sources with pre-built custom APIs, and act on insights with the click of a button. Integrate data with just a few clicks.

### Infuse AI to add powerful in-app intelligence

Automate manual processes with pre-built, AI-infused app components that allow users to leverage built-in intelligence and discover actionable insights with a simple point-and-click.

# Microsoft Power Platform

Build powerful end-to-end business solutions by connecting Power Apps across the entire Microsoft Power Platform—and to Office 365, Dynamics 365, Azure, and hundreds of other apps—to drive innovation across your entire organization.

## Power BI

Unify data from many sources to create interactive, immersive dashboards and reports that provide actionable insights and drive business results.

## Power Automate

Include powerful workflow automation directly in your apps with a no-code approach that connects to hundreds of popular apps and services.

## Power Virtual Agents

Easily build chatbots to engage conversationally with your customers and employees—no coding required.

## Pricing

Run single apps	Run unlimited apps
\$12.80 CAD	\$51.20 CAD
\$10.00 USD	\$40.00 USD
Per user/app/month	Per user/app/month
Run applications around a single business scenario for an individual employee.	Run unlimited applications for multiple business scenarios.
